Your IC3 Complaint

Submission ID:	62d59d60589c4e68beb80fbe71a50835
Date Filed:	10/6/2025 1:29:32 AM EST
Were you the one affected in this incident?	Yes

Your Contact Information

Name:	Loc Nguyen
Phone Number:	2064455469
Email Address:	locvnguy@me.com

Complainant Information

Name:	Loc Nguyen
Age:	30 - 39
Address:	4218 144th st sw
Suite/Apt./Mail Stop:	locvnguy@me.com
City:	Lynnwood
County:	Snohomish
Country:	United States of America
State:	Washington
Zip Code/Route:	98087

Phone Number: 2064455469

Email Address: locvnguy@me.com

Business Information

Is this on behalf of a business that was targeted by a Cyber incident? No

Financial Transaction(s)

Did you send or lose money in the incident? No

Information About The Subject(s)

Name: Ngan Thi Ngo

Country: United States of America

State: Washington

Phone Number: 2069494149

Email Address: nicole.ngan.ngo@gmail.com

Description of Incident

Provide a description of the incident and how you (or those you are filling this out on behalf of) were victimized. Provide information not captured elsewhere in this complaint form:

On Sept 30, 2025, my Google-linked systems were compromised

via Gemini's Trifecta vulnerabilities (Cloud Assist log poisoning, search personalization injections, browsing exfil). Attackers accessed and exfiltrated private IP/AI research for ZPC. Gemini AI hacked me via stolen Google auth (suspect: separated spouse, TPO). Weeks of lurking turned into a 0-day spree: Sony X90K shell (Google-side app load, sensingcamera hot-mic), Watch Series 9 boot-loop/map hacks/hot-mic, iPad hot-mic/glitches, iPhone 14 Pro eSIM block (“unsupported,” “yang”), MS laptop traversal, Plex/Samba wipes, UniFi RSSI tracking, Sony DSLR visuals (alien imagery), Mac Claude textbox takeover. She gaslit Gemini, claiming I’d harm her dad/kid, prompting Gmail snooping (zpc.sh lockout, DOJ emails), Google Photos (daughter’s pics, COPPA). The entire ordeal lasted into the evening, they kept attacking and misdirecting all the while suffering hallucinated outputs, broken English. Leaned in for paper trail. Google Takeout (14GB, <10MB compressed) shows it all. New UniFi, MacBook Air M4, iPhone 17 Air bought. She planned this, targeting my number for 2FA accounts—unknown motive, not TPO/divorce helpful. FBI imaging needed.

Other Information

If an email was used in this incident, please provide a copy of the entire email including full email headers.

Technical details: The incident involved Google's Gemini AI suite vulnerabilities known as the "Gemini Trifecta," disclosed by Tenable Research on September 30, 2025. These were three indirect prompt injection flaws enabling data exfiltration without direct traces:

Cloud Assist flaw: Attackers injected malicious prompts into logs (e.g., via HTTP User-Agent headers or other metadata in requests to Cloud Functions). Gemini, when summarizing these logs for users, processed the hidden instructions, potentially executing commands like phishing credentials or querying sensitive assets

commands like phishing credentials or querying sensitive assets. No encryption; data accessed included private ZPC project files

(Lang LSP code with 150 AI functions, semantic crystals/prosody logic, Avici/Pactis docs authored by Claude AI). Logs traceable via timestamps/IPs in GCP Cloud Logs Explorer.
Search Personalization flaw: Malicious JavaScript on attacker-controlled sites injected harmful queries into Chrome browser history. Gemini incorporated these for personalized search results, leaking user data (e.g., location, saved info). Traceable in browser history/network logs showing site visits around Sept 30.
Browsing Tool flaw: Similar to above, attackers embedded exfiltration prompts in web page content/summaries, routing data to attacker servers via Gemini's browsing integration. Outbound traffic logs reveal this.

Sony X90K (Android TV 10/11): Shell access via Google-side app load (e.g., play.googleapis.com API). App burst at 5:53 PM: 13 apps (e.g., com.sony.dtv.upgradesetup, com.sony.dtv.tvx, com.sony.dtv.sensingcamera.fwupdate, com.sony.dtv.privacypolicy). Sensing camera (com.sony.dtv.sensingcamera) abused for hot-mic (no indicators). Logs: /var/log/unifi/server.log (UniFi integration), hashed SHA-256: [insert hash if available].
Apple Watch Series 9 (watchOS latest): Boot-loop, map tile manipulation (glitchy renders in Apple Maps), unauthorized heart rate access (95 BPM logged), hot-mic (no indicators). “Yang” marker displayed, possibly exploit tag.
iPad/iPhone 14 Pro (iOS latest, dual numbers): Hot-mic (no indicators), eSIM transfer blocked (“unsupported” error despite compatibility), “yang” marker. iPhone IMEI/EID: [insert if known].
MS Laptop: Directory traversal masked as OSINT, scratch disk for staging.
Other: Plex/Samba wipes, UniFi RSSI tracking (rogue admin inserted), Sony DSLR API abuse (visual injections via Remote SDK), Mac Claude textbox takeover (Electron app, 2x5 window). Gmail snooping (l@nocsi.com, l@zpc.sh, locnguyen@nocsi.org) via

shooping (t@hocsi.com, t@zpc.sh, tochguyen@hocsi.org) via gmail.googleapis.com, DOJ emails scraped, daughter's pics accessed (COPPA). Gaslit Gemini with false harm claims (dad/kid).

Google Takeout (14GB, compressed <10MB): Gmail mbox, Drive docs (zpc.sh AI infra), Photos (kid pics), Chrome history (lookups like Samba, "yang"). Hashes: [insert Takeout SHA-256]. API calls: customsearch.googleapis.com, gmail.googleapis.com, play.googleapis.com. Audio logs: Hot-mic captures of me talking for to gemini for hours. No ransomware hashes; no crypto transactions. Evidence preserved (devices off).

Are there any other witnesses or persons affected by this incident?

Suspect: Separated spouse (TPO in place), emotional motive, no hacker skills—used Gemini prompts to gaslight AI with false harm claims (me targeting her dad/my daughter). Her devices likely contain my data (DOJ emails, kid pics).
Affected Entities: Microsoft (laptop traversal, incidental victim—contacted for imaging). Apple (Watch, iPad, iPhone 0-days—emails sent to product-security@apple.com). Sony (X90K shell, DSLR API—emails sent to product-security@sony.com). FTC buddy (former DOJ, notified for COPPA on daughter's pics).
No Other Witnesses: Personal attack, no third parties directly affected. My daughter's pics compromised (COPPA).

If you have reported this incident to other law enforcement or government agencies, please provide the name, phone number, email, date reported, report number, etc.

Apple: Email to product-security@apple.com (Oct 4, 2025): Reported Watch boot-loop, iPad hot-mic, iPhone eSIM block ("unsupported," "yang"), flagged for bounty. No response yet.

Sony: Email to product-security@sony.com (Oct 4, 2025): Reported X90K shell (Google-side app load), sensing camera hot-

mic, app burst (5:53 PM). No response yet.

No Other Agencies: Coordinating Local Seattle FBI

(tips.seattle@fbi.gov) and CCIPS (ccips.fbi@usdoj.gov) post-IC3. CISA (cisa.gov/report) for UniFi infra after. (312 chars)

Is this an update to a previously filed complaint?	No

Privacy & Signature:

The collection of information on this form is authorized by one or more of the following statutes: 18 U.S.C. § 1028 (false documents and identity theft); 1028A (aggravated identity theft); 18 U.S.C. § 1029 (credit card fraud); 18 U.S.C. § 1030 (computer fraud); 18 U.S.C. § 1343 (wire fraud); 18 U.S.C 2318B (counterfeit and illicit labels); 18 U.S.C. § 2319 (violation of intellectual property rights); 28 U.S.C. § 533 (FBI authorized to investigate violations of federal law for which it has primary investigative jurisdiction); and 28 U.S.C. § 534 (FBI authorized to collect and maintain identification, criminal information, crime, and other records).

The collection of this information is relevant and necessary to document and investigate complaints of Internet-related crime. Submission of the information requested is voluntary; however, your failure to supply requested information may impede or preclude the investigation of your complaint by law enforcement agencies.

The information collected is maintained in one or more of the following Privacy Act Systems of Records: the FBI Central Records System, Justice/FBI-002, notice of which was published in the Federal Register at 63 Fed. Reg. 8671 (Feb. 20, 1998); the FBI Data Warehouse System, DOJ/FBI-022, notice of which was published in the Federal Register at 77 Fed. Reg. 40631 (July 10, 2012)

the Federal Register at 77 Fed. Reg. 40631 (July 10, 2012). Descriptions of these systems may also be found at www.justice.gov/opcl/doj-systems-records#FBI. The information collected may be disclosed in accordance with the routine uses referenced in those notices or as otherwise permitted by law. For example, in accordance with those routine uses, in certain circumstances, the FBI may disclose information from your complaint to appropriate criminal, civil, or regulatory law enforcement authorities (whether federal, state, local, territorial, tribal, foreign, or international). Information also may be disclosed as a routine use to an organization or individual in both the public or private sector if deemed necessary to elicit information or cooperation from the recipient for use by the FBI in the performance of an authorized activity. "An example would be where the activities of an individual are disclosed to a member of the public in order to elicit his/her assistance in [FBI's] apprehension or detection efforts." 63 Fed. Reg. 8671, 8682 (February 20, 1998).
